Subject: Strapping around The Green
Date: 04 November 2024 13:38:51

Hi Jan,

As discussed the VGA believe we should have trimmer protection around the new oak posts on The Green. Apparently it was not part of the original specification. Can this be discussed at the next PC meeting to get this completed. The old posts had this and lasted fifty years.

As an aside, the free Christmas Tree we were to be given is not now happening as Coxhill farm are not going to sell trees now. Can I assume that as general protocol the PC will pick up the bill for this normally around £200.

Thank you for your support.

Regards

Martyn
